

Vivace

CORTE BRAVI®

We were curious to express the Corvinone in purity, pink and sparkling. A kind of game that we wanted to experience, to satisfy its vivacity, its freshness, its enviable desire to always remain a young wine.

It's called Vivace because of its exuberant vitality and a bold versatility in combining it with everything.

the grapes are only from Corvinone, which, once picked by hand, are immediately softly pressed with a short must-skins contact. They are immediately put to ferment in steel tanks without the use of chemical additives and with only temperature control. The malolactic fermentation is spontaneous. Refinement in steel for at least 6 months follows. Before being bottled

without filtration, we add must from dried Corvinone grapes, and then continue its refinement in bottles and obtain a sparkling wine.
